12th October 2011

Dear Liz and Sadie,

We are Fir Class from North Waltham Primary School and would like to thank you for sharing your knowledge and letting us see your gigantic, fabulous inflatable planetarium. Furthermore it was very kind of you to teach us. When we went in it it was a bit scary but better when the film started. It was exciting because we had never been in an inflatable planetarium before and it was interesting to learn about black holes.

We have learnt lots that we didn't know before. Our favourite planets are Mars, Saturn and Jupiter, because they seem interesting. We liked seeing what the eye can't see from Earth. Can we ask you some extra questions? Who thought up the names of the planets? What's your favourite planet?

We were all really excited when we first entered the hall. When we stepped into the planetarium everyone got happy. Even though it was squishy the film was still amazing. We really enjoyed the movie but next time can we lie down because we got really sore necks! But the movie was great and cool. It felt like we were really in space like astronauts. We learnt so much about the planets and telescopes. We have had lots of visitors in this school and you are one of the best. We had lots of fun finding out the fabulous facts of astronomy. It's given us lots of enthusiasm to look at the night sky.

We would like to ask some more questions. Firstly, how many stars are there in our galaxy? Next, how long have you been studying stars?

As you can see from this letter, Fir Class has learnt lots of information from your visit with the planetarium. We were very impressed with your knowledge and we hope you will come back soon so that we can learn more.

Our teacher Miss Walker and the other adults also learnt lots and enjoyed your visit too.

Yours sincerely,

Fir Class
